Description

Defined by its large heat output, whisper quiet operation and unrivalled durability the Blue Giant Series has become the industry standard over the last few years and can be found in many of the continents most established hire fleets. Built to last and featuring **full thermostatic control** and over temperature protection the Blue Giant heaters boast 29kW of heat from a 32a supply, 14kW from a 16a supply and 3kW from a 13a supply. With a powerful air delivery system these heaters can be ducted up to 10m and be supplied with multiple outlets for heating more than one area.
