Description

The fully portable RG308/32 provides localised heat for operatives or processes when traditional heat isn't an option. Runs from a standard 110V 32A supply and features all new carbon fibre filaments for improved resilience, two heat settings, a reduced glow and a high quality build specification.

Features

- Rugged steel body
- Powder-coated finish
- Lockable castor wheels
- Carbon fibre filaments
- Anti-tilt safety cut-out

Specification
