Description

The all new RG908/16 provides 9kW of localised heat for operatives or processes when traditional heat isn't an option. Runs from a standard 400V 16A supply and features our carbon fibre filaments for improved resilience, two heat settings, a reduced glow and a high quality build specification.

Features

- Rugged steel body
- Powder-coated finish
- Lockable castor wheels
- Carbon fibre filaments
- Anti-tilt safety cut-out

Specification
