Description

The all new FFHT32 are powerful industrial electric fan heaters capable of ducting long distances and delivering high volume airflows with a delta of 75°C, or even holding a room at 60°C. Built to withstand the knocks of day to day site use, the FFHT32 is ideal for use in factories, events and even as part of a pest control system. Along with delivering an impressive heat output, the unit boasts a full range of safety features and accessories as standard including over temperature protection, remote & machine mounted thermostats, duct adaptor, locking 4 point castors, multiple heat settings, 1.8m mains cable with a 32A 5-pin plug, as well as a 2 year warranty as standard.

Specification

Field	Detail
Model Code	FFHT32
Fuel	Electric
Voltage	400v 3ph
Current (Amps)	28A
Max Capacity (kW)	29 (output)
Air Displacement	960 m3/hr
Noise Level dB(A)	73dB @ 3m
Input (kW)	18
Weight (Kgs)	29.5
